DETAILED ACTION

Allowable Subject Matter

1. Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reasons for the indication of the allowability of claims 1-21 are:

Regarding claims 1-13, the prior art does not teach or fairly suggest in combination with the other claimed limitations a remote distribution cabinet having at least one panelboard attached to an internal panel and a plurality of structural members being attached to the internal panel thereby forming a frame structure including the structural members, the internal panel and the panel board.

Regarding claims 14-21, the prior art does not teach or fairly suggest in combination with the other claimed limitations a remote distribution cabinet having at least one internal panel having at least one panelboard affixed thereto; and means for incorporating said panelboard and internal panel into said frame structure.

These limitations were found in claims 1-21 and are neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Raabe et al (US 4,783,718) discloses a remote distribution cabinet.
